

Print & Play Cuban Dominoes!

Below is a set of Double-Six dominoes (28 tiles).

Print them out and glue onto cardboard to make them stronger then cut them out (with adult supervision).

The aim of the game is to get rid of all your pieces!

Rules:

Each team has 2 players each.

Step 1:

Lay the domino tiles face down and shuffle them.

Step 2:

Each player picks up 6 dominoes. Keep them hidden so other players can't see!

Step 3:

From the leftover tiles, choose one each and see who has the highest domino. That person starts the game.

Step 4:

Put a domino on the table. The next player must match a domino's dots to one or other end of that tile. If you can't, then pass your turn to the next player.

Step 5:

When you've played all your tiles, shout "Domino!" Congratulations, your team has won.

Step 6:

If no-one can win by playing all their tiles, stop. Count up the value of dominoes left in your hand. The player with the LOWEST points wins!

Step 7:

Once the winning team is found (by domino or low score), the losing team (and only the losing team) counts the value of their remaining tiles. This total is awarded to the winning team's score. The first team to reach 100 points wins the whole game. Mooray!
